7-Transport

Travel to the centre is 2 hours by car, from the International Incheon Airport. Due to the accommodation and playing venue being located in the same place; all within walking distance, there is no need to venture outside and for any transport arrangements to be made, this makes it very convenient. However; with the centre being located away from the city and with no shops, the organisers did arrange for transport to a nearby shopping centre 2 days before the competition.

The choice of accommodation and venue at D-Ground was a wise decision made by the organising committee.

In conclusion, this tournament was very successful; it progressed smoothly throughout with a great atmosphere and the players were satisfied.

I would like to take this opportunity to express my sincere thanks to the organising committee, officials, all staff and volunteers for the great work done.

Suggestions for future improvements are as follows:

1. If possible, there should be a higher platform for the wheelchair players to watch the matches in the playing hall.
2. To increase the number of outside spectators during the competition, organisers could arrange for nearby high school and primary school students to watch.
3. The food was satisfactory, however vegetables were slightly spicy. If there is to be more European players in the future, more varieties of western food and bread are recommended.
