| Situation | <p>Weather: The month of November is characterized by gradually rising daily high temperatures, with daily highs around 27°C throughout the month, exceeding 32°C or dropping below 20°C only one day in ten.</p> <p>History : São Paulo is the largest city in Brazil, with a city population of about 11 million and almost 20 million in its metropolitan region. It is the capital of the Southeastern state of São Paulo, and also a beehive of activity that offers a jovial nightlife and an intense cultural experience. São Paulo is one of the richest cities in the southern hemisphere, though inequality between the classes typically observed in Brazil is blatant. Historically attractive to immigrants as well as (somewhat later) Brazilians from other states, it's one of the most diverse cities in the world. São Paulo, or Sampa as it is also often called, is also probably one of the most underrated cities tourism-wise, often overshadowed by other places in the Brazilian sun & beach circuit such as Rio de Janeiro and Salvador.</p> <p>Special: If there is a major attraction to this city, it is the excellent quality of its restaurants and the variety of cultural activities on display. Just south of the city, lies the Parque Estadual Serra do Mar (part of the Atlantic Forest South-East Reserves, a UNESCO World Heritage Site), a mountain range covered by exuberant rainforest that faces the coast and provides various ecotourism options.</p> |

| Recommendations | The venue and the accommodation places are ok. It is very high level venue and hotel but until the March 2017 is under construction so it's difficult to view the final layout. I think that the TD who will be in the Youth Para Pan Games will have more and finals information's for many things. In the Hotel there are a limit of 269 persons. I would like to inform that during my inspection the Brazilian friend explain that they wants to do a factor 40 tournament before or after the continental event, in this case the venue are ok but the accommodation must change and must use a hotel of course the hotel that they proposed as "contingency plan" for the continental events is very good hotel but the need more transportation system and in Sao Paolo i think that is more difficult. |
