Situation	<p>Weather: The average monthly temperature in Santiago in January is 21°C. Daytime averages hit 30°C and this is consistent throughout the entire month. Nights drop down to an average of 11°C.</p> <p>History: Santiago, Chile's capital and largest city, is in a valley surrounded by snow-capped Andes and the Chilean mountain range. The Plaza de Armas, the heart of the city's old colonial center, is home to 2 neoclassical historic sights: the 1808 Palacio de la Real Audiencia, home of the National History Museum, and the 18th-century Metropolitan Cathedral. La Chascona is home from poet Pablo Neruda who was transformed into a museum.</p>

Overview and Recommendations	<ul style="list-style-type: none"> - During the inspection the LOC presented the Chilean Olympic Committee Gymnasium as one of the options to hold the competition. During the visit it was noted that the Venue does not offer the minimum conditions for holding the event. Among the points that make the event unfeasible, we point out: lack of space to place 8 competition tables and concentration area and training venue, insufficient lighting structure. There is no local place to accommodate wheelchair athletes

who are not competing. For these and other reasons we do not approve the Chilean Olympic Committee's gymnasium for hosting the Chilean Paralympic Open in 2020.

- The LOC does not have enough tables of the same brand for competition and training. Therefore we strongly recommend the acquisition of tables from the same brand to the training area.
- The Polideportivo Gymnasium has good condition to host the 2020 PTT Chile Open. Among the technical requirements we can highlight: enough space to allocate the competition tables, training area, concentration area and enough lightning. The sport complex also has several rooms that can be used as: athletes rest area, umpires lounge, classification room, etc.
