### THE BRAIN – CENTER OF THE TOURNAMENT

#### **Ball boys/girls**

On Friday, the first day of the tournament, we had in the hall enough number of ball boys and girls, but during the weekend days we had the smaller number of them. OC solved it fast and well - people from their staff helped with the job and therefore we really haven't some problems on the tables. For the next tournament OC will solve the ball children in a different way.

#### **Organization :**

The whole tournament was organized very well. OC had enough the responsible members or staff for accommodation, transport, meals in hotel and in Venue and for all other needed things around the play in the hall. They came with some interesting news ideas too.

**For example they prepared the very nice marking of countries for Team's event – see the picture bellow :**

**Org. Committee:** The people from OC + big number of next staff and volunteers worked during the whole tournament very hardly. If somebody from the participants had some problem, they tried to solve it immediately. In the office of OC always were and worked some people.

**In conclusion:** It wasn't possible to see, the OC was organized their first ITTF PTT tournament only. All for the good running organization was prepared before the start of the Fa 20 tournament. It was one of smaller tournament, but I am sure, participants will like to come once more, therefore all around the tournament was made very friendly and OC offered the whole services for the participants in the time and in very good level. During the tournament we had always in time all of needed information and on the end, with the Results on DVD, we got there still pictures from the tournament and very originally made video clip from the tournament too. I spoke with the main members of OC and we discussed some small possible changes for the next tournament.

**I would like to congratulate to all of members of OC and their excellent helpers – staff and volunteers. It is necessary to tell thank you to Referee and his Deputy, to Computer man, to all of umpires from 6 countries, to both of Classifiers and of course, bal children too. Your tournament was excellent and I hope, you will try soon to organize next one.**
